

The need to deliver modern, multi-channel applications that engage customers and empower employees has never been more urgent. Enterprise PaaS offers a much-needed way forward.

STS, the leading provider of rapid web and mobile application development platforms and services for the enterprise, brings you **mendix**, the PaaS recognized by **Gartner** as a visionary in their magic quadrant for Enterprise Application Platform as a Service and by **Forrester** as a leader.

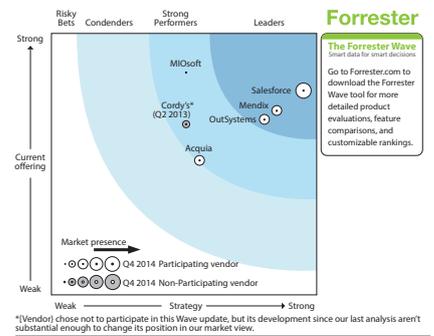

Magic Quadrant Gartner

Using Gartner's Pace-Layered Application Strategy in conjunction with the **mendix** App Platform, IT can deliver high-impact systems of differentiation and innovation with the speed, agility and collaboration required by the business.

The growth and success of your company depends on its ability to differentiate its offering and innovate in tangible ways that move the needle.

In today's technology-driven world, that means developing light-weight, user-friendly applications fast, is a business mandate.

If you take a look above, we can see that Forrester has the **mendix** App Platform placed as one of the Strong Leaders in it's field.

mx mendix values
